a
altered cells separated from normal (AUC)
liver
lung
spleen
chance
arm changes added per cell
b
cells called malignant (%)
ikarus
CopyKAT
colours: same three tissues as (a)
arm changes added per cell
c
published rule
score, same false-call rate
liver
lung
spleen
false calls (liver / lung / spleen)
ikarus
83 / 6 / 3%
forced 2-group split
5 / 56 / 22%
2-criterion rule (Tirosh)
6 / 5 / 4%
highest-scoring cluster
6 / 1 / 0%
no false calls: not estimable
altered cells found (%), among cells with 12–18 arm changes
